Legenda

Forme, processi e depositi di versante dovuti alla gravita'

Legend for slope forms and gravity-related deposits. Includes categories: ACTIVE, QUIESCENTE, INATTIVO. Symbols for various types of landslides and erosion features like scarp edges, debris fans, and areas of soil creep.

Forme e depositi dovuti alle acque correnti superficiali

Legend for forms and deposits due to surface water. Includes symbols for gully erosion, alluvial fans, sheet erosion, rill erosion, and various sediment types like clays, silts, and sands.

Forme strutturali

Legend for structural forms. Includes symbols for crests and erosion scarps at different heights (h < 10m, h >= 10m, h >= 20m).

Forme e depositi di origine carsica

Legend for karst forms and deposits. Includes symbols for closed depressions, caves, and various types of karst deposits like travertine and calcareous breccias.

Forme, depositi e attivita' antropiche

Legend for anthropic forms, deposits, and activities. Includes symbols for inactive sites, open-pit mines, excavation surfaces, and artificial features like artificial ditches and water bodies.

Legend for administrative and cartographic limits. Includes symbols for communal boundaries, regional boundaries, and areas developed at a scale of 1:10,000.
